Why do we need to secure the best for life sciences after Brexit?

In 2015, **over half** of the UK's **research output** was the result of an **international collaboration**

In 2015, **medical research charities** funded over **£1.4 billion of health research**, nearly half of all publically funded medical research

The **UK life sciences industry** generates a **combined estimated annual turnover** of **£60.7 billion**

Currently, **60%** of the **UK's internationally co-authored** research papers are with **EU partners**

At the new **Francis Crick Institute**, **non-UK nationals** make up **81%** of **PostDoc** research staff

In 2015, the UK **exported** approx. **£29.5 billion** in **life sciences products**, of which **44% went to the EU**

Nearly **72%** of **UK-based researchers** spent time at **non-UK institutions** between 1996 and 2012

27% of the **UK's Nobel prize-winners** for **Physiology or Medicine** were **born overseas**

Almost **222,000 people** are employed across **5,633 companies** in the **life sciences sector**
